

# BROADCAST YOUR NEXT EVENT

CRD Associates now offers the opportunity to broadcast your briefings, advocacy days, fairs, and other Capitol Hill events in real time, streaming high-quality video through your organization's social media platforms. Broadcasting your event allows you to boost your "attendance" exponentially and report tangible results to your Board members and stakeholders.

After the conclusion of your event, we will provide you with the full-length video and excerpts of each speaker's remarks, along with social media links to your videos on Twitter, Facebook, and YouTube, and a report on your total viewership numbers. Your footage will make great content for website enhancement, promotional material, member updates, new member outreach, and email distribution to Capitol Hill offices and news outlets.
